Confirm Email Address

- You will be notified by LabCorp when your result is available
- Results, both *normal* and *abnormal* (Cell-free DNA/NIPT) are available through LabCorp's portal (Not Mychart)
- All *abnormal* results are called within 1-2 business days after being released to the portal, by a counselor in Maternal Fetal Medicine (MFM) who reviews the results thoroughly
- To minimize the chance of accessing an *abnormal* result through the portal, wait two days after notification to review the results
- If you are hoping to have a friend share the sex of the pregnancy with you, share how to access your results through the LabCorp portal with them
- If you have any questions [call the counseling line:](tel:7816245041)
(781) 624-5041 [M-F 8:00 AM – 4:30 PM]
