

PGY-1 Pharmacy Residency Program at South Shore Health

PROGRAM OVERVIEW:

The PGY-1 Pharmacy Residency Program at South Shore Health is a **full year, integrated learning experience** to prepare pharmacists for a future in clinical pharmacy. Residents will participate in a well-rounded selection of rotations to develop skills in direct patient care, practice management/ leadership, distribution, and teaching.

Over the course of the year, residents will participate in emergency response coverage, develop teaching and communication skills through various presentations, and conduct a longitudinal research or quality improvement project.

Upon completion of the program and the diverse experiences offered, residents will be prepared to provide comprehensive patient care, seek board certification in pharmacotherapy, and pursue additional specialized training.
