One-to-One: Connecting with Someone Who's Been There

If you or a loved one is navigating a cancer diagnosis, our free telephone support program can connect you with understanding peers who have walked a similar path. Imagine having someone who truly understands, who's been there themselves, ready to listen. Over one to two phone calls, our peer mentors are here for you, offering heartfelt support and guidance on your journey. This free telephone program is available to Dana-Farber patients, caregivers, and loved ones. Get connected today by calling 617-632-4020 or emailing onetooone@dfci.harvard.edu.

To learn more, visit www.dana-farber.org/onetooone.

SoulMates

For individuals facing a breast cancer diagnosis, connecting to someone with a similar experience can be a great source of comfort. Our SoulMates program matches breast cancer patients at Dana-Farber with volunteers who have been through a similar journey. SoulMates participants can benefit from the insight of a peer mentor who is trained in topics such as listening, problem solving, and confidentiality. These volunteers offer emotional support, practical coping tips, and more. They guide patients to Dana-Farber programs and community resources. Most importantly, they help relieve fears and concerns because they understand what it's like to face cancer. This program is currently open to women of all ages with breast cancer who are receiving their treatment at Dana-Farber. Volunteers must be out of active treatment for at least two years. For more information, call Anna Lunsford at 857-215-5042.
